CLEARINGHOUSE
FOR FEDERAL SCIENTIFIC AND TECHNICAL INFORMATION

U. S. DEPARTMENT OF COMMERCE / NATIONAL BUREAU OF STANDARDS / INSTITUTE FOR APPLIED TECHNOLOGY

March 15, 1966 Volume 15, Number 5

TECHNICAL TRANSLATIONS

Issued twice a month by the Clearinghouse for Federal Scientific and Technical Information in cooperation with the Special Libraries Association Translations Center and the European Translations Centre. Annual subscription $12 ($4 additional for foreign mailing). Single copy 60 cents. Make remittance payable to Superintendent of Documents and mail either to a Department of Commerce Field Office or to Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Address changes are to be made to Superintendent of Documents.

PURPOSE

Technical Translations announces to the public the availability and provides order information for translated scientific and technical reports, periodicals and books. Although most of the literature has been translated into English, some is in other Western European languages. The language of the translation, if other than English, is noted in the citation. Most of the material is of Soviet origin, but works from Eastern and Western European countries and from the Orient, especially Japan and Communist China, are also cited. In order to avoid duplication of effort, translations in process are also announced.

FORMAT

This journal is separated into five sections:

(1) Bibliographic citations are divided into 22 major fields; they are further subdivided alphanumerically under 178 groups. References to sources of original text are given as they appear on the translation, with sufficient editing to assure uniformity in citations.

(2) Translations in Process lists titles of translations being prepared by government and private sources. All Special Foreign Currency Science Information (SFCSI) Program translations are listed (formerly PL 480 Program).

(3) Translated or Abstracted Publications lists titles of approximately 190 technical and scientific periodicals regularly translated into English. Included is a cross reference by English title.

(4) Translated Tables of Contents of recent issues of monographs, journals, and journal sections; they are preceded by a list of the English titles of the publications from which they are taken.

(5) Indexes: three indexes are arranged by author, journal and number.

HOW TO ORDER

Each bibliographic entry contains the acronym or initials of the agency from which the translation is to be ordered; these are keyed to the complete list of ordering addresses listed in the pages headed "Directory of Sources." Order by the title and number given in the citation. Translations available from the Clearinghouse (CFSTI) often have alternative prices cited as hard copy (HC) and microfiche copy (MF). Make check or money order payable to agency indicated. Most of the literature is available from the Clearinghouse, the Special Libraries Association Translations Center (SLA), or the European Translations Centre (ETC).

REFERENCE SERVICE

Reference services for the location and identification of translated materials, completed or in process, are provided by the Clearinghouse, Special Libraries Association Translations Center, and the European Translations Centre. Mailing addresses are listed in "Directory of Sources."

TRANSLATORS

The work of translating the material listed is being done at many points, domestic and foreign, government and private. Among them are the Joint Publications Research Service, which translates foreign research at the request of other Federal agencies; commercial translators; publishers; and universities. The Special Foreign Currency Science Information Program, administered by the National Science Foundation, produces translations prepared in the participating countries of Israel, Poland and Yugoslavia. The Special Libraries Association is responsible for collecting translations from non-government sources, domestic and foreign, and the Clearinghouse from foreign and U.S. Government sources. Translators may have their works cited in the journal by sending the bibliographic and availability information to the Clearinghouse. A copyright release statement is required if the works are to be sold by the Clearinghouse.

special ANNOUNCEMENTS

SOCIAL SCIENCE TRANSLATIONS

The Clearinghouse has expanded its announcement and distribution of translations to include the social sciences. This extended coverage of translations by the Clearinghouse was recently endorsed by the Interagency Committee on Scientific and Technical Information (COSATI), a committee of the Federal Council on Science and Technology.

The principal Government producer of social science translations is the Joint Publication Research Service (JPRS), a component of the Clearinghouse. JPRS was established in 1957 to translate under contract, for all Federal agencies, foreign documents and journals in all fields of science.

JPRS social science translations are announced in this journal and are available from the Clearinghouse.

Private Sources of JPRS Translations in the Social Sciences

Research and Microfilm Publications, Inc., (RMP) offers microfilms of current and back files of JPRS social science reports, bibliography-guides to report contents, and other bibliographies and catalogs. Certain selected books are offered individually. RMP has recently begun to include scientific and technical reports in its microfilm issuances. The reports sold by this firm are on 35-mm microfilm reels, arranged first by geographic area, then divided into serials, ad hoc and books. They are grouped within these sections by subject. Bibliography guides and catalogs are in offset format and are available with or without the microfilm series.

The cost of RMP's JPRS-ST Research Microfilms is six-tenths of one cent per page reproduced. The annual subscription includes all scientific and technical translations. RMP furnishes each subscriber with an annual statement of cost on the basis of actual production. A $250 semi-annual advance payment is required. JPRS social science translations are also priced at six-tenths of one cent per page reproduced. The semi-annual subscription advance payment is $250. An annual statement of cost is provided.

RMP prices for microfiche follow on the next page.

RMP prices for microfiche are:

	First Card	Trailer Cards (of same translation)
Individual JPRS titles	40 cents	24 cents
Single JPRS serial or single subject subscription	40 cents	24 cents

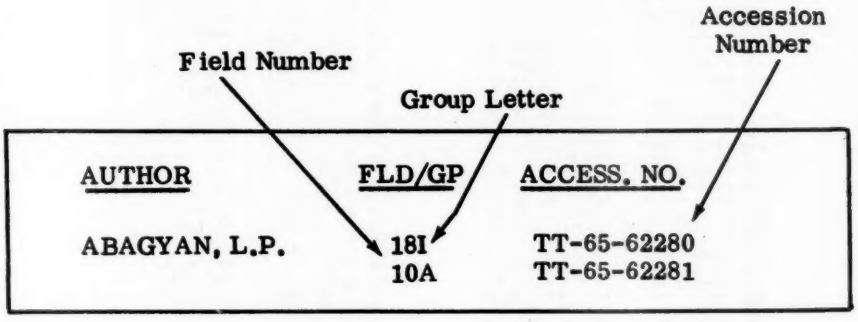
NOTE ON INDEXES

● These indexes will provide the three pieces of information necessary for the location of a particular citation in the text. They are the accession number, the field number and group letter. The following sample is taken from the author index; the other two indexes use the same system.



● With this information, fan the pages of the text, noting the field numbers in the running heads; go next to the lettered designation denoting the group and then to the accession number, listed alphanumerically.

● Two other possible designations may appear in the Field and Group columns. Samples are:
